Machine Level Language

- ❑ Machine Language is a collection of binary digits (01001101) or bits .
- ❑ Machine Language is the only language a computer understands.
- ❑ **E.g.**, to add two numbers we would need a series of binary codes such as:

0010 0000 0000 0100

0100 0000 0000 0101

0011 0000 0000 0110
